- Bi-Weekly: \$33,200

- Monthly: \$32,810
- Fortnightly: \$32,007
- Weekly: \$31,786

13. Size Performance

- 🏆 M: \$105,167
- L: \$61,667
- S: \$40,468
- XL: \$25,779
- **Highest AOV:** S — \$61.04

14. Top 10 Locations by Revenue

1. **Montana — \$5,784**
2. Illinois — \$5,617
3. California — \$5,605
4. Idaho — \$5,587
5. Nevada — \$5,514
6. Alabama — \$5,261
7. New York — \$5,257
8. North Dakota — \$5,220
9. West Virginia — \$5,174
10. Nebraska — \$5,172

15. Highest-Spending Locations

1. 🏆 Alaska — **\$67.60 AOV**
2. Pennsylvania — \$66.57
3. Arizona — \$66.55
4. West Virginia — \$63.88
5. Nevada — \$63.38
6. Washington — \$63.33
7. North Dakota — \$62.89
8. Virginia — \$62.88
9. Utah — \$62.58
10. Michigan — \$62.10

16. Category Customer Satisfaction

- 🏆 Footwear: 3.79
- Accessories: 3.77
- Outerwear: 3.75
- Clothing: 3.72

17. Previous Purchase Segments

- 0–5: \$25,692
- 6–15: \$44,699
- 16–30: \$69,706
- 🏆 31+: \$92,984

18. Top 10 High-Value Customers

- Top customers have purchases of **\$100**
- **\$100 is the maximum purchase value** in the dataset.
- Customers such as **3838, 456, 2431, 43 and 3322** are among the top-value customers.

19. Category + Gender Opportunity

- Result: **Category × Gender combinations ranked by revenue**
- Used to identify the strongest category/gender opportunities.

20. Subscription + Purchase Frequency

- Result: **Subscription × Purchase Frequency combinations ranked by revenue**
- Used to identify the strongest customer segments.

Advanced Results

21. Discount vs Non-Discount Revenue Gap

- **Non-Discount AOV:** \$60.13
- **Discount AOV:** \$59.28
- **Gap:** -\$0.85

22. Subscription + Discount Analysis

- Result: **Four customer groups compared**
 - Subscriber + Discount
 - Subscriber + No Discount
 - Non-Subscriber + Discount
 - Non-Subscriber + No Discount
- Exact combined ranking needs to be calculated from the dataset.

23. Best Product Within Each Category

- Result: **Top-revenue product identified separately for each category**
- Exact product-by-category results need to be calculated from the dataset.

24. High-Revenue but Low-Rated Products

- Result: **Products with high revenue and ratings below the selected threshold**
- Exact product list needs to be calculated from the dataset.

25. Revenue per Customer by Category

- Result: **Category revenue efficiency ranked by average purchase**
- Clothing has the highest **total revenue: \$104,264.**

26. New vs Repeat Customer Performance

- **New (0–5):** \$25,692
- **Low Repeat (6–15):** \$44,699
- **Regular (16–30):** \$69,706

- 🏆 Loyal (31+): \$92,984

27. Category + Season Opportunity

- Result: **Category × Season revenue ranking**
- Exact highest category for each season needs to be calculated from the dataset.

28. Payment Method + Average Order Value

- 🏆 Debit Card: \$60.92
- Credit Card: \$60.07
- Bank Transfer: \$59.71
- Cash: \$59.70
- PayPal: \$59.25
- Venmo: \$58.95

29. High-Spending + Highly Loyal Customers

- Result: Customers with **30+ previous purchases** and **\$90+ current purchase**
- These represent potential **VIP customers**.

30. Category Revenue Contribution %

Category	Revenue	Contribution
🏆 Clothing	\$104,264	44.73%
Accessories	\$74,200	31.83%
Footwear	\$36,093	15.49%
Outerwear	\$18,524	7.95%

Clothing + Accessories = 76.56% of total revenue.
